

**Table 2:** Sensorial block characteristics' of Levobupivacaine and Bupivacaine groups.

<b>Variables</b>	<b>Group L</b>	<b>Group B</b>
<b>Time to achieve sensory block of T<sub>6</sub> (minutes)</b>	8.33 ± 1.24	7.8 ± 1.06
<b>Max spread of sensory block *</b>	T5 (T4-T6)	T4 (T4-T6)
<b>Time to S<sub>2</sub> regression (minutes)</b>	69.05 ± 4.61	66.69 ± 5.48

Data are expressed as Mean ± Standard Deviation (SD), \*: median (range), Group L: Group Levobupivacaine, Group B: Group Bupivacaine.
