

Table 1: Distribution of the 50 randomly selected radiographs of physeal injuries in relation to the anatomic sites of injury and the types of Salter-Harris classification.

Anatomic site	Type I	Type II	Type III	Type IV	Type V	Overall
Distal radius	2	6	2	0	2	12
Metacarpals and fingers	1	7	2	1	1	12
Distal tibia	1	2	3	1	1	8
Distal fibula	1	1	0	0	1	3
Metatarsals and toes	0	3	2	1	0	6
Proximal humerus	2	2	0	0	0	4
Distal humerus	0	0	1	1	0	2
Distal femur	0	2	1	0	0	3
Overall	7	23	11	4	5	50
